10 January 2020. The National PFAS Data Explorer information page says More information about navigation *[link to how-to video to be added]*. Who is creating the video, where will it be posted, when and by whom?

Subject: Link to how-to video

Good Afternoon Everyone,

I am reviewing the National PFAS Data Explorer pending actions that I'm aware of and noticed the following: The National PFAS Data Explorer information page says, 'More information about navigation *[link to how-to video to be added]*.' Who is creating the video, where will it be posted, when and by whom? Please advise.

Thanks,

Alex

21 January 2020. Perhaps not a video but here is a slide deck created with the Snip tool. Everyone has told me to hold off on doing anything with a video. It is not critical to the release. I provided Tim with the attachment below for his PPT prep.
